

Description

Decorative long-throw nozzle

Composition

The Jet Design long-throw nozzle and the decorative ring are manufactured in aluminium, with a standard paint finish in RAL 9010 white. The connection part is manufactured of galvanised steel sheet. The Jet Design nozzle has an extraordinarily good aesthetic design and can be painted by special order to fit any decorative need.

Application

See image below- A. They can be used for spot cooling and are especially appropriate for large rooms requiring a decorative look, B. Hotels, C. Shopping malls, D. Salons, E. Convention centres, F. Airport vestibules, G. Passenger stations, H. Social halls, etc.

Mounting

Can be mounted directly to the duct, plenum box or surface and allows a flexible duct of standard dimensions to be coupled directly to each nozzle.
